# Garden Checklist

1. There's no fruit like home-grown fruit. Check with your nurseryman to find the best for your garden.
2. Plant Wistaria this month. The new shoots should be guided with string in the direction you want them to grow.
3. For a ground cover you can forget once it's established, try one of the low growing native Ceanothus varieties.
4. Light feeding this month will insure that your lawns get off to a good start next month as weather warms up.
5. Check ties on climbing roses when you prune them to make sure the brittle canes are secure.

# "Medallion homes are my choice"

J. R. BOLKER, OWNER AND PRESIDENT, BRIGHTON-BILT HOMES

When building expert J. R. Bolker decided to develop Brighton Hills, an \$18-million project in Montebello, he left nothing to chance.

A sales office on the project site interviewed hundreds of prospective home buyers. They were asked about such things as home size, floor plans, and—of course—kitchens. A great majority indicated they wanted the features found only in homes built to Medallion requirements.

Concludes Mr. Bolker: "People realize they're receiving value in the Medallion home. That's why our Brighton Hills Homes bear the Medallion Award."

Experts like Mr. Bolker make sure before they decide. Take a tip. You do the same. Look for the Medallion.

It symbolizes the high standards of electrical excellence.

Only one new home in five qualifies for the Medallion—an award which assures you:

1. All-electric kitchen, equipped with major electric appliances, including flameless range and oven.
2. Housepower wiring for modern electric living.
3. Light for Living—abundant light designed for comfort, safety and beauty.
4. Flameless electric space and water heating.

The Gold Medallion Award includes all these Medallion features and more. For total electric living, the Gold Medallion adds:

"Vanerine" model home, Brighton Hills, in Montebello, at Lincoln and Wilcox Bivbs.
